INTERGOVERNMENTAL AGREEMENT ON DRY PORTS
INTERGOVERNMENTAL AGREEMENT ON DRY PORTS

The Parties to this Agreement,

Recalling Economic and Social Commission for Asia and the Pacific resolution 66/4 of 19 May 2010 on the implementation of the Bangkok Declaration on Transport Development in Asia and the request contained therein to work towards the development of an intergovernmental agreement on dry ports,

Conscious of the need to promote and develop an international integrated intermodal transport and logistics system in Asia and with neighbouring regions,

Mindful of the expected increase in international goods transport as a consequence of growing international trade in the ongoing process of globalization,

Determined to strengthen connectivity and seamless international movement of goods, facilitate increased efficiency and reduce the cost of transport and logistics as well as to extend its reach to inland areas and wider hinterlands,

Encouraged by the successful regional cooperation that led to the entry into force of the Intergovernmental Agreement on the Asian Highway Network\(^1\) and the Intergovernmental Agreement on the Trans-Asian Railway Network,\(^2\)

Considering that, in order to strengthen relations and promote international trade among members of the Economic and Social Commission for Asia and the Pacific, it is essential to develop dry ports of international importance to the requirement of international transport and to reduce the adverse impact of transport on the environment,

Recognizing the need to develop guiding principles for the development and operation of dry ports of international importance for harmonization and facilitation of intermodal transport in Asia and the Pacific,

Keeping in view the role of dry ports of international importance as an important component of an effective and efficient international integrated

intermodal transport and logistics system, especially in addressing the specific needs of landlocked, transit and coastal States,

*Have agreed* as follows:
